

## Calcs shortcuts:

```
Add a new input cell: alt + a  
Remove the end input cell: alt + x  
Save active calc to 'My Calcs': ctrl + s  
Clear all: alt + c  
Select up: shift + up arrow  
Select down: shift + down arrow  
Run all active cells only: shift + e  
Run all calc cells: ctrl + enter
```

**Note:** all keyboard shortcuts apply to windows operating systems only

The contextual app keyboard shortcut overrides the browser shortcut where these overlap
